

LOCATION	Mooring class	Max. vessel length	Installed latitude GDA94 ddm	Installed longitude GDA94 ddm
Bald Rock	Α	10m	23° 10.210' S	150° 59.561' E
Barren Island	Α	10m	23° 09.295' S	151° 04.484' E
Barren Island	В	20m	23° 09.448' S	151° 04.290' E
Big Peninsula	В	20m	23° 08.986' S	150° 58.419' E
Man and Wife Rocks	В	20m	23° 06.973' S	150° 59.495' E
Monkey Beach	Α	10m	23° 11.658' S	150° 56.186' E
	В	20m	23° 11.693' S	150° 56.171' E
Outer Rock	Α	10m	23° 03.757' S	150° 57.119' E
Shelving Beach	Α	10m	23° 11.272' S	150° 56.025' E
Sloping Island	В	20m	23° 05.875	150° 53.888 E

Disclaimer: The above published positions are correct to the best of the Great Barrier Reef Marine Park Authority and the Queensland Parks and Wildlife Service's knowledge at June 2018. No guarantee is given that the moorings are in the location shown in the table. Vessel of pers should be attempting to access the moorings. Particular care should be taken in accessing the provingent prior to attempting to access the moorings.

Instructions to vessel masters:

- 1. Vessel masters are solely responsible for the safety of their vessel while using the public mooring
- 2. A watch must be kept at all times while the vessel is on the mooring
- 3. Be aware of changing weather and sea conditions and your proximity to obstacles, including coral and other ressels, and how these may be affected by mooring swing.

Public moorings

Public moorings are installed at popular locations and have blue double cone-shaped buoys with a colour-coded band attached. This band tells you the class (vessel length), time units and maximum wind strength limits applying to the mooring. A large number of privately-owned moorings also exist in the marine parks and you should have the owner's permission before using these moorings.

Using public moorings

To protect fragile reefs in high-use areas runs to help stop misuse of public moorings and reef protection markers are in place. While there have always been rules a bound the use of moorings, the rules have been updated to outline what is considered misuse of public moorings. The includes:

- · exceeding time limits
- attaching more than one Vssel to a public mooring
- rafting-up attachi g multiple essels in a chain when one vessel is attached to the mooring
- altering the mooring
- not following the instructions on the mooring.

These rules are to help make sure public moorings continue to be available for everyone's use. It's about playing fair while out on the water. Anyone found to be misusing a public mooring or public infrastructure may be issued with a penalty infringement notice.

The appropriate use of public moorings is outlined in Regulation 102 of the Great Barrier Reef Marine Park Regulations 1983. For further information on anchoring and mooring, visit www.gbrmpa.gov.au, under the Visit the Reef tab.

Reef Protection Areas

Some reef areas are particularly vulnerable to anchor damage. Six Reef Protection Areas can be found in the Keppel Islands and anchoring is not allowed in these areas. These areas are often marked by reef protection markers, which are white pyramid-shaped buoys with a blue label.

The six Reef Protection Areas are located at:

- · Barren Island
- Big Peninsula
- Humpy Island
- Monkey Beach
- · Shelving Beach
- · Sloping Island

When visiting a reef or bay that has a Reef Protection Area (no anchoring):

- You may enter when approaching or leaving moorings or beaches. You cannot anchor inside the area, however vessels may access and anchor on the beach when conditions allow
- You cannot attach your vessel or aircraft to a reef protection marker.
