Preface

A Introduction

1. The *Great Barrier Reef Marine Park Act 1975* (the *Act*) provides for the establishment, control, care and development of the Great Barrier Reef Marine Park (the *Marine Park*). The Great Barrier Reef Marine Park Authority (the *Authority*) is responsible for the management of the Marine Park.
2. The *Great Barrier Reef Marine Park Zoning Plan 2003* (the *Zoning Plan*) is the primary planning instrument for the conservation and management of the Marine Park.
3. In having regard to the objects set out in subsection 32 (7) of the Act, the Zoning Plan takes account of the world heritage values of the Marine Park and the principles of ecologically sustainable development. The Zoning Plan aims, in conjunction with other management mechanisms, to protect and conserve the biodiversity of the Great Barrier Reef ecosystem within a network of highly protected zones, while providing opportunities for the ecologically sustainable use of, and access to, the Great Barrier Reef Region by current and future generations.
4. In addition to the protection of representative areas of biodiversity, the Zoning Plan also provides for the protection of other areas of high conservation value by assigning protective zoning to a range of habitats such as coral reefs, sponge beds, seagrass beds and deep water areas, as well as important dugong habitats and other special or unique sites.
5. The Marine Park is managed as a multiple use area. This means that, while enhancing the conservation of the Marine Park, the Zoning Plan also provides for a range of recreational, commercial and research opportunities, and for the continuation of traditional activities.
6. The Zoning Plan expressly acknowledges the rights and interests of Indigenous Australians in the Marine Park by providing for the management of the traditional use of marine resources, including traditional hunting, in accordance with Aboriginal and Torres Strait Islander custom and tradition.
7. The contributions of scientific research to the management and understanding of the Marine Park are also acknowledged in the Zoning Plan, which provides for the management of research in the Marine Park, including a system of Scientific Research Zones to facilitate research around scientific research stations.
8. The Zoning Plan builds on the framework established by previous zoning plans for the Far Northern, Cairns, Central, Mackay/Capricorn and Gumoo Wooljabaddee Sections to provide a single, consistent zoning plan for the entire Marine Park. The Zoning Plan also provides zoning for the 28 new coastal areas which have been included in the Marine Park since the year 2000.

9. Many of the provisions of previous zoning plans have been revised and simplified in this Zoning Plan. The Zoning Plan also provides for the description of zone boundaries through a process of coordinate-based mapping. It is envisaged that, in addition to the conservation benefits, these changes will provide for a simpler, more consistent, and user-friendly basis for the management of activities within the Marine Park.

B The Amalgamated Great Barrier Reef Section

10. Since the declaration of the first area (or *Section*) of the Marine Park in 1983, the Marine Park has been progressively increased to its present area by the addition of new Sections.

11. The Far Northern Section, the Cairns Section, the Central Section and the Mackay/Capricorn Section were progressively declared to be parts of the Marine Park between 1983 and 1989. In 1998 the Gumoo Wojobuddee Section was declared to be a part of the Marine Park, and a further 28 new coastal Sections were declared to be parts of the Marine Park in 2000 and 2001.

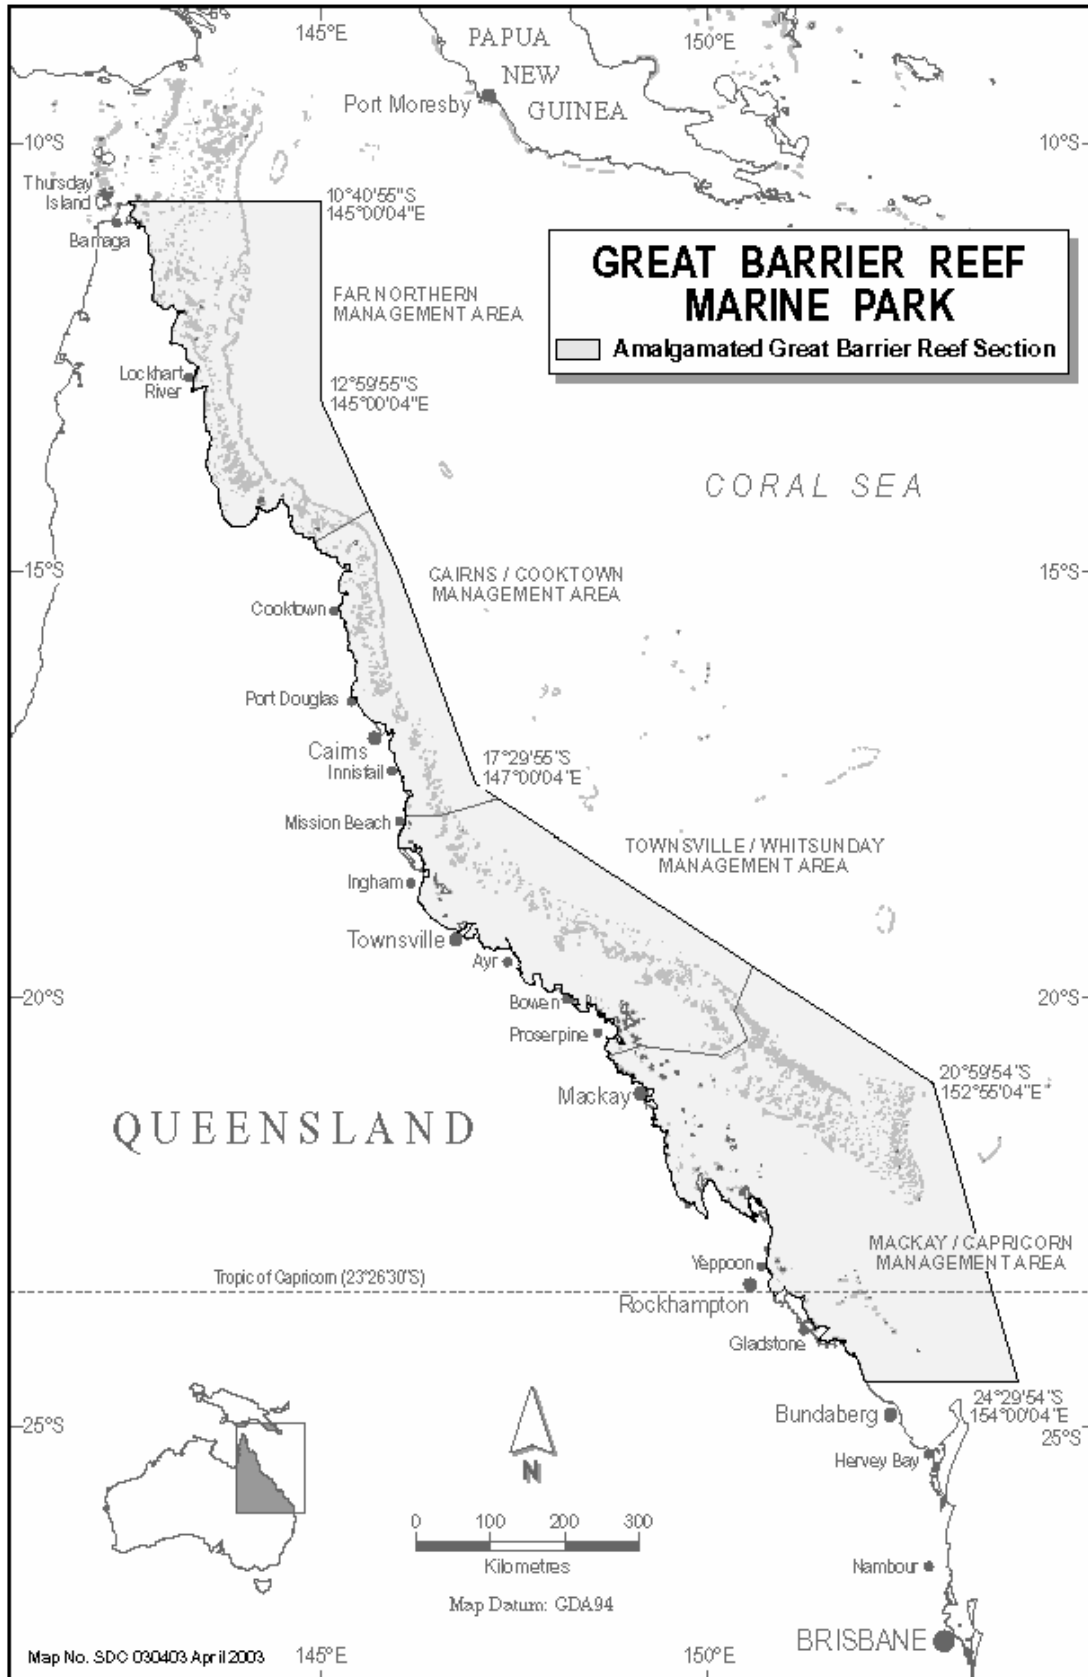

12. The Amalgamated Great Barrier Reef Section (the *AGBR Section*) was proclaimed under subsection 31 (1) of the Act in 2003 (*Gazette* No. XXX dated XXX).

13. The AGBR Section covers more than 99% of the Great Barrier Reef Region and replaces all previously existing Sections (as listed in Table 1 at the end of this Preface). For administrative purposes, the AGBR Section is divided into 4 management areas:

- the Far Northern Management Area
- the Cairns/Cooktown Management Area
- the Townsville/Whitsunday Management Area
- the Mackay/Capricorn Management Area.

Although these management areas have no legislative effect, they approximate the areas of the previous 4 main Sections and provide a basis for the regional management of the Marine Park. Further sub-areas or regions may also be identified for particular management purposes.

14. The following map shows the location and extent of the AGRB Section.

C The Great Barrier Reef Marine Park Zoning Plan

15. The framework for the conservation and management of the AGRB Section is provided by this Zoning Plan, the requirements for the preparation of which are set out in section 32 of the Act.

16. Subsection 32 (7) of the Act provides that, in preparing a zoning plan, the Authority must have regard to a number of objects including the conservation of the Great Barrier Reef, the regulation of the use of the Marine Park so as to protect the Great Barrier Reef, the reservation of some areas for appreciation and enjoyment by the public, and the preservation of some areas in their natural state.

17. The Zoning Plan provides for the division of the AGRB Section into zones and makes provision for the purposes for which each zone may be used or entered. The Zoning Plan also provides for the management of remote natural areas of the Marine Park, and the designation of shipping and special management areas, as well as additional purposes for which zones may be used or entered.

Zones

18. Part 2 of the Zoning Plan divides the AGRB Section into 8 zones, named as follows:

- General Use Zone
- Habitat Protection Zone
- Conservation Park Zone
- Buffer Zone
- Scientific Research Zone
- Marine National Park Zone
- Preservation Zone
- Commonwealth Islands Zone.

19. The boundaries of the zones are set out in Parts 1 to 8 of Schedule 1 to the Zoning Plan.

20. The Zoning Plan sets out the purposes for which each zone may be used or entered without permission, and the purposes for which each zone may be used or entered only with the written permission of the Authority. The General Use Zone provides for the widest range of activities, while the Preservation Zone is the most restricted. The Commonwealth Islands Zone provides for the use or entry of areas of the Marine Park above mean low water on Commonwealth Islands. (The Marine Park does not include areas that form a part of Queensland.)

21. The operation of Part 2 (Zones) is subject to the provisions of Part 3 (Remote Natural Area), Part 4 (Designated Areas) and Part 5 (Additional purposes for use or entry), which are discussed below. The overlay of use or entry provisions within the zoned areas, as provided by or under Parts 3, 4 and 5, is an integral part of the zoning scheme.

Remote Natural Area

22. Part 3 (Remote Natural Area) of the Zoning Plan provides for the establishment of the Remote Natural Area to ensure that the Area is recognised and managed for its natural and undeveloped character. The provisions of the Zoning Plan for the Remote Natural Area are primarily concerned with recreational and tourism use or amenity, and are intended to encourage recognition of the value of the area as remote destinations for low levels of nature-based tourism and private recreation. The Remote Natural Area is also intended to be largely free from structures and permanently moored facilities, and to restrict certain works such as dredging and spoil disposal.

23. The boundary of the Remote Natural Area established at the commencement of the Zoning Plan is set out in Part 9 of Schedule 1 to the Zoning Plan. The approximate location of the Remote Natural Area is shown on relevant zoning maps accompanying the Zoning Plan. Regulations made under the Act may from time to time designate further zoned areas as part of the Remote Natural Area.

Designated Areas

24. Part 4 (Designated Areas) of the Zoning Plan provides for 2 kinds of Designated Areas within zoned areas.

25. *Shipping Areas* are areas within which ships may navigate through the Marine Park, subject to any limitations prescribed in the Regulations. The Shipping Areas designated at the commencement of the Zoning Plan are described in Part 10 of Schedule 1 to the Zoning Plan. Further Shipping Areas may be designated by the Regulations.

26. *Special Management Areas* are parts of the zoned areas where specific management measures are necessary, for example, to regulate access or activities in heavily used areas, to protect resources, to allow for the replenishment of resource stocks, or to ensure public safety. These special management provisions may apply on a temporary, seasonal or permanent basis and are as prescribed, from time to time, in the Regulations. Special Management Areas may be designated by the Authority after public consultation in accordance with the Regulations.

Additional purposes for use or entry

27. Part 5 (Additional purposes for use or entry) of the Zoning Plan provides for use or entry to zones for purposes in addition to those for which provision is made in Part 2 (Zones), Part 3 (Remote Natural Area) and Part 4 (Designated Areas). Such purposes include access for the purposes of safety, emergencies, environmental monitoring, navigational aids, defence operations, government survey, and Aboriginal or Torres Strait Islander custom or tradition.

Enforcement of the Zoning Plan

28. The provisions of the Zoning Plan are enforced by sections 38A to 38E of the Act, which set out offences relating to use or entry of a zone for purposes that are not permitted, or in contravention of permission requirements or conditions. Contravening notification requirements or directions of the Authority is also an offence.

D Additional management provisions

29. In addition to the Zoning Plan, regard should be had to the *Great Barrier Reef Marine Park Act 1975*, the Regulations, and any plans of management or policies of the Authority in force from time to time. Additional restrictions or requirements may also apply with respect to a particular use or entry of a place or conduct of an activity under another law of the Commonwealth or under a Queensland law.

Plans of management

30. Under Part VB of the Act, the Authority may prepare plans of management, that are more detailed than the Zoning Plan, to provide for the management of natural and cultural heritage values, the use of particular areas of the Marine Park, or the conservation of species or ecological communities within the Marine Park.

31. Under Part VB of the Act, the Authority may enter into an agreement or arrangement with a community group (including an Aboriginal or Torres Strait Islander group) that has a special interest in an area of the Marine Park. The agreement or arrangement may relate to the development or implementation, or both, of a plan of management and may provide that the community group is to manage the area (or a species or an ecological community within the area) jointly with the Authority in accordance with the plan of management.

Regulations

32. The *Great Barrier Reef Marine Park Regulations 1983* are made under section 66 of the Act. Among other things, the Regulations give effect to aspects of the Zoning Plan. They provide for a range of matters, including the conduct of activities in a zone or a part of a zone. They also provide for the designation of areas and for the process of obtaining permissions required for the use or entry of zones under the Zoning Plan.

Other provisions of the Act

33. The *Great Barrier Reef Marine Park Act 1975* also provides that:

- **no operations for the recovery of minerals** may be carried on in the Marine Park, except where such operations are carried out with the approval of the Authority under subsection 38 (3) of the Act for the purposes of research and investigations relevant to the establishment, care and development of the Marine Park or for scientific research;
- **waste may not be discharged into the Marine Park** other than in accordance with section 38J of the Act and subject to the provisions of the Regulations;
- **a scheme of compulsory pilotage** is imposed on regulated ships in the compulsory pilotage area (that part of the Great Barrier Reef Region prescribed by the Regulations);
- **an Environmental Management Charge** is imposed on chargeable permissions;

-
- **the provisions of the Act apply to all persons**, including foreigners, and to all vessels and aircraft, including foreign vessels and aircraft, whether or not they are within the limits of Australia and the Australian coastal sea, subject to the obligations of Australia under international law, including obligations under any agreement between Australia and another country or countries.

E Zoning maps

34. A zoning map is a cartographic product that may accompany the Zoning Plan and is used to illustrate the general location of zones.

35. From time to time the Authority may also produce zoning maps and other map-based products, including guides to zoning at various scales, which illustrate and interpret the Zoning Plan for ease of public understanding and for education. Although these products may display zoning to a high degree of mapping accuracy, they have no legal effect and are not a substitute for the zone boundary descriptions provided in Schedule 1 to the Zoning Plan.

36. Schedule 1 provides the definitive boundaries for the zones and other areas described in the Zoning Plan. Each zoned location has a unique identifier (for example, MNP-11-031). This identifier is used in Schedule 1 where each zone is described, and allows specified zoned locations to be identified on zoning maps.

37. The boundaries of the Remote Natural Area and some Designated Areas are described in Schedule 1. However, following the commencement of the Zoning Plan, further areas may be designated in accordance with the Regulations. Descriptions of the Remote Natural Area or Designated Areas designated after the commencement of the Zoning Plan will be published on the GBRMPA web-site (<http://www.gbrmpa.gov.au>).

* Amended by the *Great Barrier Reef Marine Park (Declared Areas) Amendment Proclamation 2001 (No. 1)*.

Part 1 Preliminary

1.1 Name of Zoning Plan

This Zoning Plan is the *Great Barrier Reef Marine Park Zoning Plan 2003*.

1.2 Commencement

This Zoning Plan comes into operation on the date specified in a notice published in the *Gazette* under subsection 33 (5) of the Act.

1.3 Application of Zoning Plan

This Zoning Plan applies to the Amalgamated Great Barrier Reef Section of the Marine Park.

Note The Amalgamated Great Barrier Reef Section is defined in the Regulations — see the Dictionary.

1.4 Revocation of previous Zoning Plans

The following Zoning Plans, as amended and in force immediately before the commencement of the Zoning Plan, are revoked:

- (a) the Central Section Zoning Plan that came into operation on 1 October 1987;
- (b) the Mackay/Capricorn Section Zoning Plan that came into operation on 1 August 1988;
- (c) the Cairns Section Zoning Plan that came into operation on 3 April 1992;
- (d) the Far Northern Section Zoning Plan that came into operation on 15 April 2002;
- (e) the Gumoo Woorabuddee Section Zoning Plan that came into operation on 20 December 2002.

1.5 Interpretation — general

- (1) The dictionary at the end of the Zoning Plan defines particular words and expressions, and, for that purpose, includes references to certain words and expressions that are defined in the Act or Regulations, or in other legislation.
- (2) Unless the contrary intention appears, a definition in or applying to this Zoning Plan applies to each use of the word or expression in the Zoning Plan.
- (3) An example in this Zoning Plan is not part of the Zoning Plan.

Clause 1.6

- (4) If this Zoning Plan includes an example of the operation of a provision of the Plan:
 - (a) the example is not exhaustive; and
 - (b) if the example is inconsistent with the provision, the provision prevails.
- (5) Headings of Parts, Divisions and clauses in this Zoning Plan are part of the Zoning Plan.
- (6) A note in this Zoning Plan is explanatory and is not part of the Zoning Plan.
- (7) The Preface to this Zoning Plan is explanatory and is not part of the Zoning Plan.
- (8) A zoning map that accompanies this Zoning Plan is indicative only and is not part of the Zoning Plan.

1.6 Interpretation — geographic coordinates etc

- (1) In this Zoning Plan, all references to geographic coordinates are expressed in terms of the Geocentric Datum of Australia 1994.
- (2) Unless otherwise specified in this Zoning Plan, a boundary is taken to follow the geodesic between two coordinates.
- (3) For this Zoning Plan, if the boundary descriptions of 2 zones described in Schedule 1 partially or completely overlap, the area of overlap is taken to be part of the highest applicable zone specified in the following list:
 - (a) Preservation Zone;
 - (b) Scientific Research Zone;
 - (c) Marine National Park Zone;
 - (d) Buffer Zone;
 - (e) Conservation Park Zone;
 - (f) Habitat Protection Zone;
 - (g) General Use Zone.

Note 1 Zones described in Schedule 1 are described with reference to their outermost boundary and do not include areas of other zones that may fall within that boundary description — see the examples below and the notes to Parts 1 to 8 of Schedule 1.

Examples

1. The boundary of the Habitat Protection Zone described in Part 2 of Schedule 1 does not include any area within that boundary that is described in Part 3 (Conservation Park Zone), Part 4 (Buffer Zone), Part 5 (Scientific Research Zone), Part 6 (Marine National Park Zone), Part 7 (Preservation Zone) or Part 8 (Commonwealth Islands Zone) of Schedule 1.

2. An area that is within the boundary description of the Marine National Park Zone and also within the boundary description of the Habitat Protection Zone is zoned as part of the Marine National Park Zone (because the Habitat Protection Zone is a lower applicable zone than the Marine National Park Zone).

- (4) For subclause (3):
 - (a) the highest applicable zone is specified by paragraph (3) (a); and

Clause 1.7

- (b) successively lower applicable zones are specified by paragraphs (3) (b) to (f); and
 - (c) the lowest applicable zone is specified by paragraph (3) (g).
- (5) An area that is a part of the Commonwealth Islands Zone is not included as a part of another zone.

Note for subclauses (3), (4) and (5) Zones described in Schedule 1 are described with reference to their outermost boundary and do not include areas of other zones that may fall within that boundary description — see the examples below and the notes to Parts 1 to 8 of Schedule 1.

Examples for subclauses (3), (4) and (5)

1. The boundary of the Habitat Protection Zone described in Part 2 of Schedule 1 does not include any area within that boundary that is described in Part 3 (Conservation Park Zone), Part 4 (Buffer Zone), Part 5 (Scientific Research Zone), Part 6 (Marine National Park Zone), Part 7 (Preservation Zone) or Part 8 (Commonwealth Islands Zone) of Schedule 1.

2. An area that is within the boundary description of the Marine National Park Zone and also within the boundary description of the Habitat Protection Zone is zoned as part of the Marine National Park Zone (because the Habitat Protection Zone is a lower applicable zone than the Marine National Park Zone).

- (6) Each zoned location described in Schedule 1 to this Zoning Plan is given a unique identifier together with a location description.

Example for subclause (6)

The area of the Marine National Park Zone that forms a cross-shelf transect in northern Cape York and includes the Great Detached Reef (11–244) is described in Part 6 of Schedule 1 and is given the unique identifier MNP–11–031.

- (7) In this Zoning Plan, a reference to the 100 metre, 500 metre or 1 kilometre line is a reference to a notional line every point on which is 100 metres, 500 metres or 1 kilometre, as the case may be, seaward from the nearest point of the reef edge to which the lines relates.
- (8) In this Zoning Plan, a reference to the coastal 100 metre, 500 metre or 1 kilometre line is a reference to a notional line every point on which is:
- (a) 100 metres, 500 metres or 1 kilometre, as the case may be, seaward from the nearest point of the land at low water to which the line relates; or
 - (b) if a fringing reef is adjacent to the land — 100 metres, 500 metres or 1 kilometre, as the case may be, seaward from the nearest point of the reef edge to which the line relates.
- (9) In this Zoning Plan, a reference to the 5 kilometre line is a reference to a notional line every point on which is 5 kilometres seaward from the nearest point of the land at low water to which the line relates.

1.7 Application of Queensland, Commonwealth and international law

- (1) This Zoning Plan does not apply to an island, or a part of an island, that forms part of Queensland and is not owned by the Commonwealth.

Clause 1.8

- (2) This Zoning Plan does not authorise an act or omission that would, apart from the plan, contravene:
 - (a) the Act, the Regulations or a plan of management; or
 - (b) any other law of the Commonwealth or Queensland in force in the Amalgamated Great Barrier Reef Section; or
 - (c) an obligation of Australia under international law.
- (3) Nothing in this Zoning Plan is intended to extinguish any native title rights and interests.

1.8 Lawful taking of animals, plants or marine products

A reference in this Zoning Plan to the use of a vessel, or a net, hand-held implement or other apparatus, for the taking of animals, plants or marine products, is a reference to the lawful use of that vessel, net, hand-held implement or apparatus in accordance with Queensland fisheries legislation.

Part 2 Zones

Note The Act includes the following provisions relating to zones, and imposes penalties for breaches of the provisions:

- (a) a person must not use or enter a zone for a purpose that is not permitted under a Zoning Plan relating to the zone — Act, section 38A;
- (b) if, under a Zoning Plan, permission is needed to use or enter a zone for a particular purpose, a person must not use or enter the zone for that purpose without permission — Act, section 38B;
- (c) a person who has permission to use or enter a zone for a particular purpose, must not contravene any condition of that permission — Act, section 38C;
- (d) a person must not use or enter a zone for fishing of a kind that is not permitted under a Zoning Plan relating to the zone — Act, section 38CA;
- (e) if permission is needed for fishing in a particular zone, a person must not use or enter that zone for fishing without permission — Act, section 38CB;

Clause 3.1

Part 3 Remote Natural Area

Note For a summary of penalty provisions of the Act relating to the use or entry of the Remote Natural Area, see the note at the beginning of Part 2 (Zones).

3.1 Remote Natural Area

The *Remote Natural Area* consists of the following areas (being all, or a part of, 1 or more zones):

- (a) the area described in Part 9 of Schedule 1;
- (b) any other area designated by the Regulations to be a part of the Remote Natural Area.

3.2 Objectives for Remote Natural Area

The objectives of this Zoning Plan for the Remote Natural Area, in addition to the objectives of Part 2 (Zones) that apply to zones and parts of zones within the Remote Natural Area, are:

- (a) to ensure that the Area remains in a state that is largely unaltered by works or facilities; and
- (b) to provide opportunities for quiet appreciation and enjoyment of the Area.

3.3 Use or entry for certain purposes not authorised

Despite anything in Part 2 (Zones), but subject to Part 5 (Additional purposes for use or entry), the following purposes are not purposes for which the Remote Natural Area may be used or entered:

- (a) motorised watersports;
- (b) any other purpose declared for the purposes of this paragraph in the Regulations.

3.4 Use or entry with permission

Despite anything in Part 2 (Zones), but subject to Part 4 (Designated Areas) and Part 5 (Additional purposes for use or entry), the written permission of the Authority is required to use or enter the Remote Natural Area for any purpose (not being a purpose mentioned in clause 3.3) that is consistent with the objectives mentioned in clause 3.2 and is declared for the purposes of this clause in the Regulations.

Note The Regulations deal with obtaining permissions.

Part 4 Designated Areas

Note For a summary of penalty provisions of the Act relating to the use or entry of Designated Areas, see the note at the beginning of Part 2 (Zones).

Division 4.1 Shipping Areas

4.1.1 Shipping Areas

Each of the following areas (being a part or parts of a zone, or of more than 1 zone) is a *Shipping Area*:

- (a) the areas described in Part 10 of Schedule 1;
- (b) any other area designated as a Shipping Area in the Regulations.

4.1.2 Objective for Shipping Areas

The objective of this Zoning Plan for Shipping Areas is to make provision for the navigation of ships.

4.1.3 Shipping management provision

Note 1 If a provision of this Zoning Plan has the effect that an activity in an area requires permission, and another provision of the plan would have the effect that the same activity in that area does not require permission, the provision to the effect that the activity requires permission prevails — see subsection 3A (2) of the Act.

Note 2 Subject to any requirements to stow or secure fishing equipment, a ship may navigate in the General Use Zone without the permission of the Authority — see paragraph 2.2.3 (g) of this Zoning Plan. Any Shipping Areas that may be designated in the General Use Zone are for advisory purposes and do not, by way of the shipping management provisions, restrict the navigation of ships.

Despite anything in Part 2 (Zones) or Part 3 (Remote Natural Area), but subject to Division 4.2 (Special Management Areas) and Part 5 (Additional purposes for use or entry), and any limitations prescribed in the Regulations, a Shipping Area may be used or entered without permission for the navigation of a ship if any equipment on the ship that is normally used for fishing or collecting is stowed or secured.

Division 4.2 Special Management Areas

4.2.1 Special Management Areas

- (1) Each of the following areas (being a part or parts of a zone, or of more than 1 zone) is a *Special Management Area*:
 - (a) the Princess Charlotte Bay Special Management Area;
 - (b) any other area designated as a Special Management Area by the Authority in accordance with the Regulations.

Clause 4.2.2

- (4) The Regulations may provide for the designation by the Authority, without public consultation, of a Special Management Area for a period of not more than 90 days in the circumstances, and in the manner, prescribed by the Regulations.

Example for subclause (4)

To restrict access to a site following an oil spill or ship grounding.

4.2.2 Objective for Special Management Areas

The objective of this Zoning Plan for Special Management Areas is to provide for restrictions on access to, or use of, specified areas of the Marine Park for conservation or management purposes, including, but not limited to, the following:

- (a) conservation of species;
- (b) conservation of natural resources;
- (c) protection of cultural or heritage values;
- (d) appreciation by the public;
- (e) public safety;
- (f) emergency situations requiring immediate management action;
- (g) restricting access to, or use of, areas of the Marine Park adjoining areas to which access is restricted or prohibited under a law of Queensland or the Commonwealth.

Examples

Reasons for the designation of an area may include seasonal closures for turtle and bird nesting sites, the protection of a fish spawning aggregation site, a pest or exotic species outbreak, or public safety reasons.

4.2.3 Special management provisions — general

- (1) For this clause, a *special management provision* is a provision of the Regulations that is expressed to be a special management provision for 1 or more Special Management Areas or classes of Special Management Areas.
- (2) The Authority may, in accordance with the Regulations, specify, in the designation of a Special Management Area:
 - (a) the special management provisions that are to apply to the Area; and
 - (b) if the special management provisions are to apply for a particular period — the period for which the special management provisions are to apply.

- (3) For the purposes of this Zoning Plan, a special management provision for a Special Management Area applies to the Area as specified in the designation.
- (4) Subject to Part 5 (Additional purposes for use or entry), a special management provision may restrict the purposes for which a Special Management Area may, apart from the special management provision, be used or entered.
- (5) A special management provision must not be inconsistent with the objective mentioned in clause 4.2.2.

4.2.4 Special management provision — Princess Charlotte Bay Special Management Area

Note If a provision of this Zoning Plan has the effect that an activity in an area requires permission, and another provision of the plan would have the effect that the same activity in that area does not require permission, the provision to the effect that the activity requires permission prevails — see subsection 3A (2) of the Act.

Despite anything in Part 2 (Zones), but subject to Part 3 (Remote Natural Area), Part 4 (Designated Areas) and Part 5 (Additional purposes for use or entry), the written permission of the Authority is required to use or enter the Princess Charlotte Bay Special Management Area for commercial netting, in accordance with any limitations prescribed in the Regulations.

Clause 5.1

- (a) in accordance with any requirements prescribed for the purposes of this paragraph in the Regulations, to locate or secure the safety of a ship that is, or may be, endangered by stress of weather or by navigational or operational hazards;
- (b) to remove a vessel or an aircraft, or a section of a vessel or an aircraft, that is wrecked, stranded, sunk or abandoned, except a wreck to which the *Historic Shipwrecks Act 1976* applies;
- (c) to construct, conduct or service navigational aids, and their ancillary buildings and works, that are authorised under a law of the Commonwealth or of Queensland, including the operation of vessels and aircraft for those purposes;
- (d) to remove, in accordance with an order under the Regulations (being an order to which section 38H of the Act applies) or a deed of agreement, property described in the order or deed;

Note Section 38H of the Act provides for orders to be made under the Regulations requiring the removal of structures or other things from the Marine Park.
