THIS MAP IS INDICATIVE ONLY AND IS NOT INTENDED FOR NAVIGATIONAL PURPOSES.

The purpose of this map is to help interpret the Great Barrier Reef Marine Park Zoning Plan 2003 and the Marine Parks (Great Barrier Reef Coast) Zoning Plan 2004. The zone boundaries shown on this map are indicative only.

While care has been taken to illustrate zone boundaries as accurately as possible, users must refer to Schedule 1 of the Great Barrier Reef Marine Park Zoning Plan 2003 and Schedule 1 of the Marine Parks (Great Barrier Reef Coast) Zoning Plan 2004 for precise boundary descriptions.

2. Zone identifiers indicate the zone type, latitude and number of each zoned area. Zones numbered on this map:

- CP - Conservation Park Zone
- SR - Scientific Research Zone
- NP - National Park Zone
- NP - National Park Zone

3. The Great Barrier Reef Marine Parks include the water column, the seabed beneath the seabed to a depth of 1000 metres below the seabed and the airspace to 915 metres above the surface.

4. Reefs, shoals and islands within the Great Barrier Reef Marine Park are numbered west to east within one-degree bands. They are prefixed with the latitude at the top of the band in which they lie. A centric point is used to determine the appropriate one-degree band for features straddling parallels. Following the latitude band is the numeric unique reef identifier. In addition, complex reef areas carry Sub Ids in the form of alphabetic letters.

5. Islands, or parts of islands that form part of Queensland are not owned by the Commonwealth, and are not part of the Great Barrier Reef Marine Park.

6. The information displayed is held in the Great Barrier Reef Marine Park Authority Geospatial Data Library. This includes data provided by Geoscience Australia National Mapping Division (including the GEDATA product) and the Australian Hydrographic Office. Land tenure was derived from data supplied by the Queensland Department of Environment and Resource Management, December 2009.

7. While every effort has been made to show all features necessary to make this map a useful general reference, map users are invited to advise the Great Barrier Reef Marine Park Authority of any errors, omissions or other suggestions that would enhance this product. Contact details are shown on the map, or email: zoningmap@gbrmpa.gov.au

IMPORTANT NOTES FOR MAP USERS

This map may not show all Queensland State Marine Park Zoning (for example, State Marine Parks where declared between high and low water). For more information on these areas, please refer to the relevant Queensland Marine Park Zoning Plans. Restrictions and/or closures under Queensland legislation (eg. Fisheries Regulation 1995 (Qld)) are not shown. Users should familiarise themselves with all legal requirements relevant to their particular activities before entering or using the Great Barrier Reef Marine Park or the Great Barrier Reef Coast Marine Park.

The inshore boundary of the Great Barrier Reef Marine Park follows the coastline of Queensland at low water except to the extent such waters are within the limits of the State of Queensland within the meaning of section 14 of the Seas & Submerged Lands Act 1973, or where otherwise indicated (such as port areas). Any depiction of the inshore boundary on this map is indicative only.

PLEASE NOTE: This guide provides an introduction to Zoning in the Great Barrier Reef Marine Parks.

1. Restrictions apply to aquaculture, spearfishing and harvest fishing for aquarium fish, seaweeds and coral in the Conservation Park Zone.

2. Except for One Tree Island Reef (SR-23-010) and Australian Institute of Marine Science (SR-19-009), which are closed to public access and shown as orange, all other Scientific Research Zones are shown as green with an orange border.

3. Limited fish catch agreements per person (eg. crab pots, colaspis traps or dillies).

4. Limited fish catch agreements per person with a consistent total of 6 fishes per person.

5. Maximum 2 fish per person per day. Only 1 fish per person from a commercial fishing vessel.

6. Harvest from traditional use of marine resources in accordance with s 211 of the Native Title Act 1993, an accepted traditional use of marine resources is greatest at point in time.

7. Fishing seasons only. Seasonal closures apply to some Buffer Zones.

8. Points are required for most other activities not listed above.

9. Commonwealth owned areas in the Great Barrier Reef Marine Park are zoned Commonwealth Islands.

10. "Zone" shown on chart.

11. All Commonwealth Islands may not be shown.

12. Special Management Areas may provide additional restrictions at some locations.

13. The Zoning Plan does not affect the operation of s 211 of the Native Title Act 1993.

ACCESS TO ALL ZONES IS PERMITTED IN AN EMERGENCY.

SAFETY IN THE MARINE PARKS

People visit the Marine Parks at their own risk. Zoning Plans allow activities to take place, but do not guarantee safety. The Parks contain both natural and human hazards. Park users should consult navigation charts. Notices to Mariners, the Great Barrier Reef Marine Park Authority and the Department of Environment and Resource Management for more specific information before going to sea.

WARNING This map must not be used for marine navigation. Comprehensive and updated navigation information should be obtained from published hydrographic charts.
