

- LEGEND: Marine Park boundary, Great Barrier Reef Marine Park Management Area boundary, Bommie / rock, Reef Flat, Indicative Reef boundary, Designated Shipping Area boundary, Coastline, River, Mangrove, Backshore, Population centre (to scale), Population centre (symbolised), Minor road (unsealed), Major road (sealed), National Park / Conservation Tenure, Special Management Areas, Public Appreciation boundary, Species Conservation (Dugong Protection) boundary.

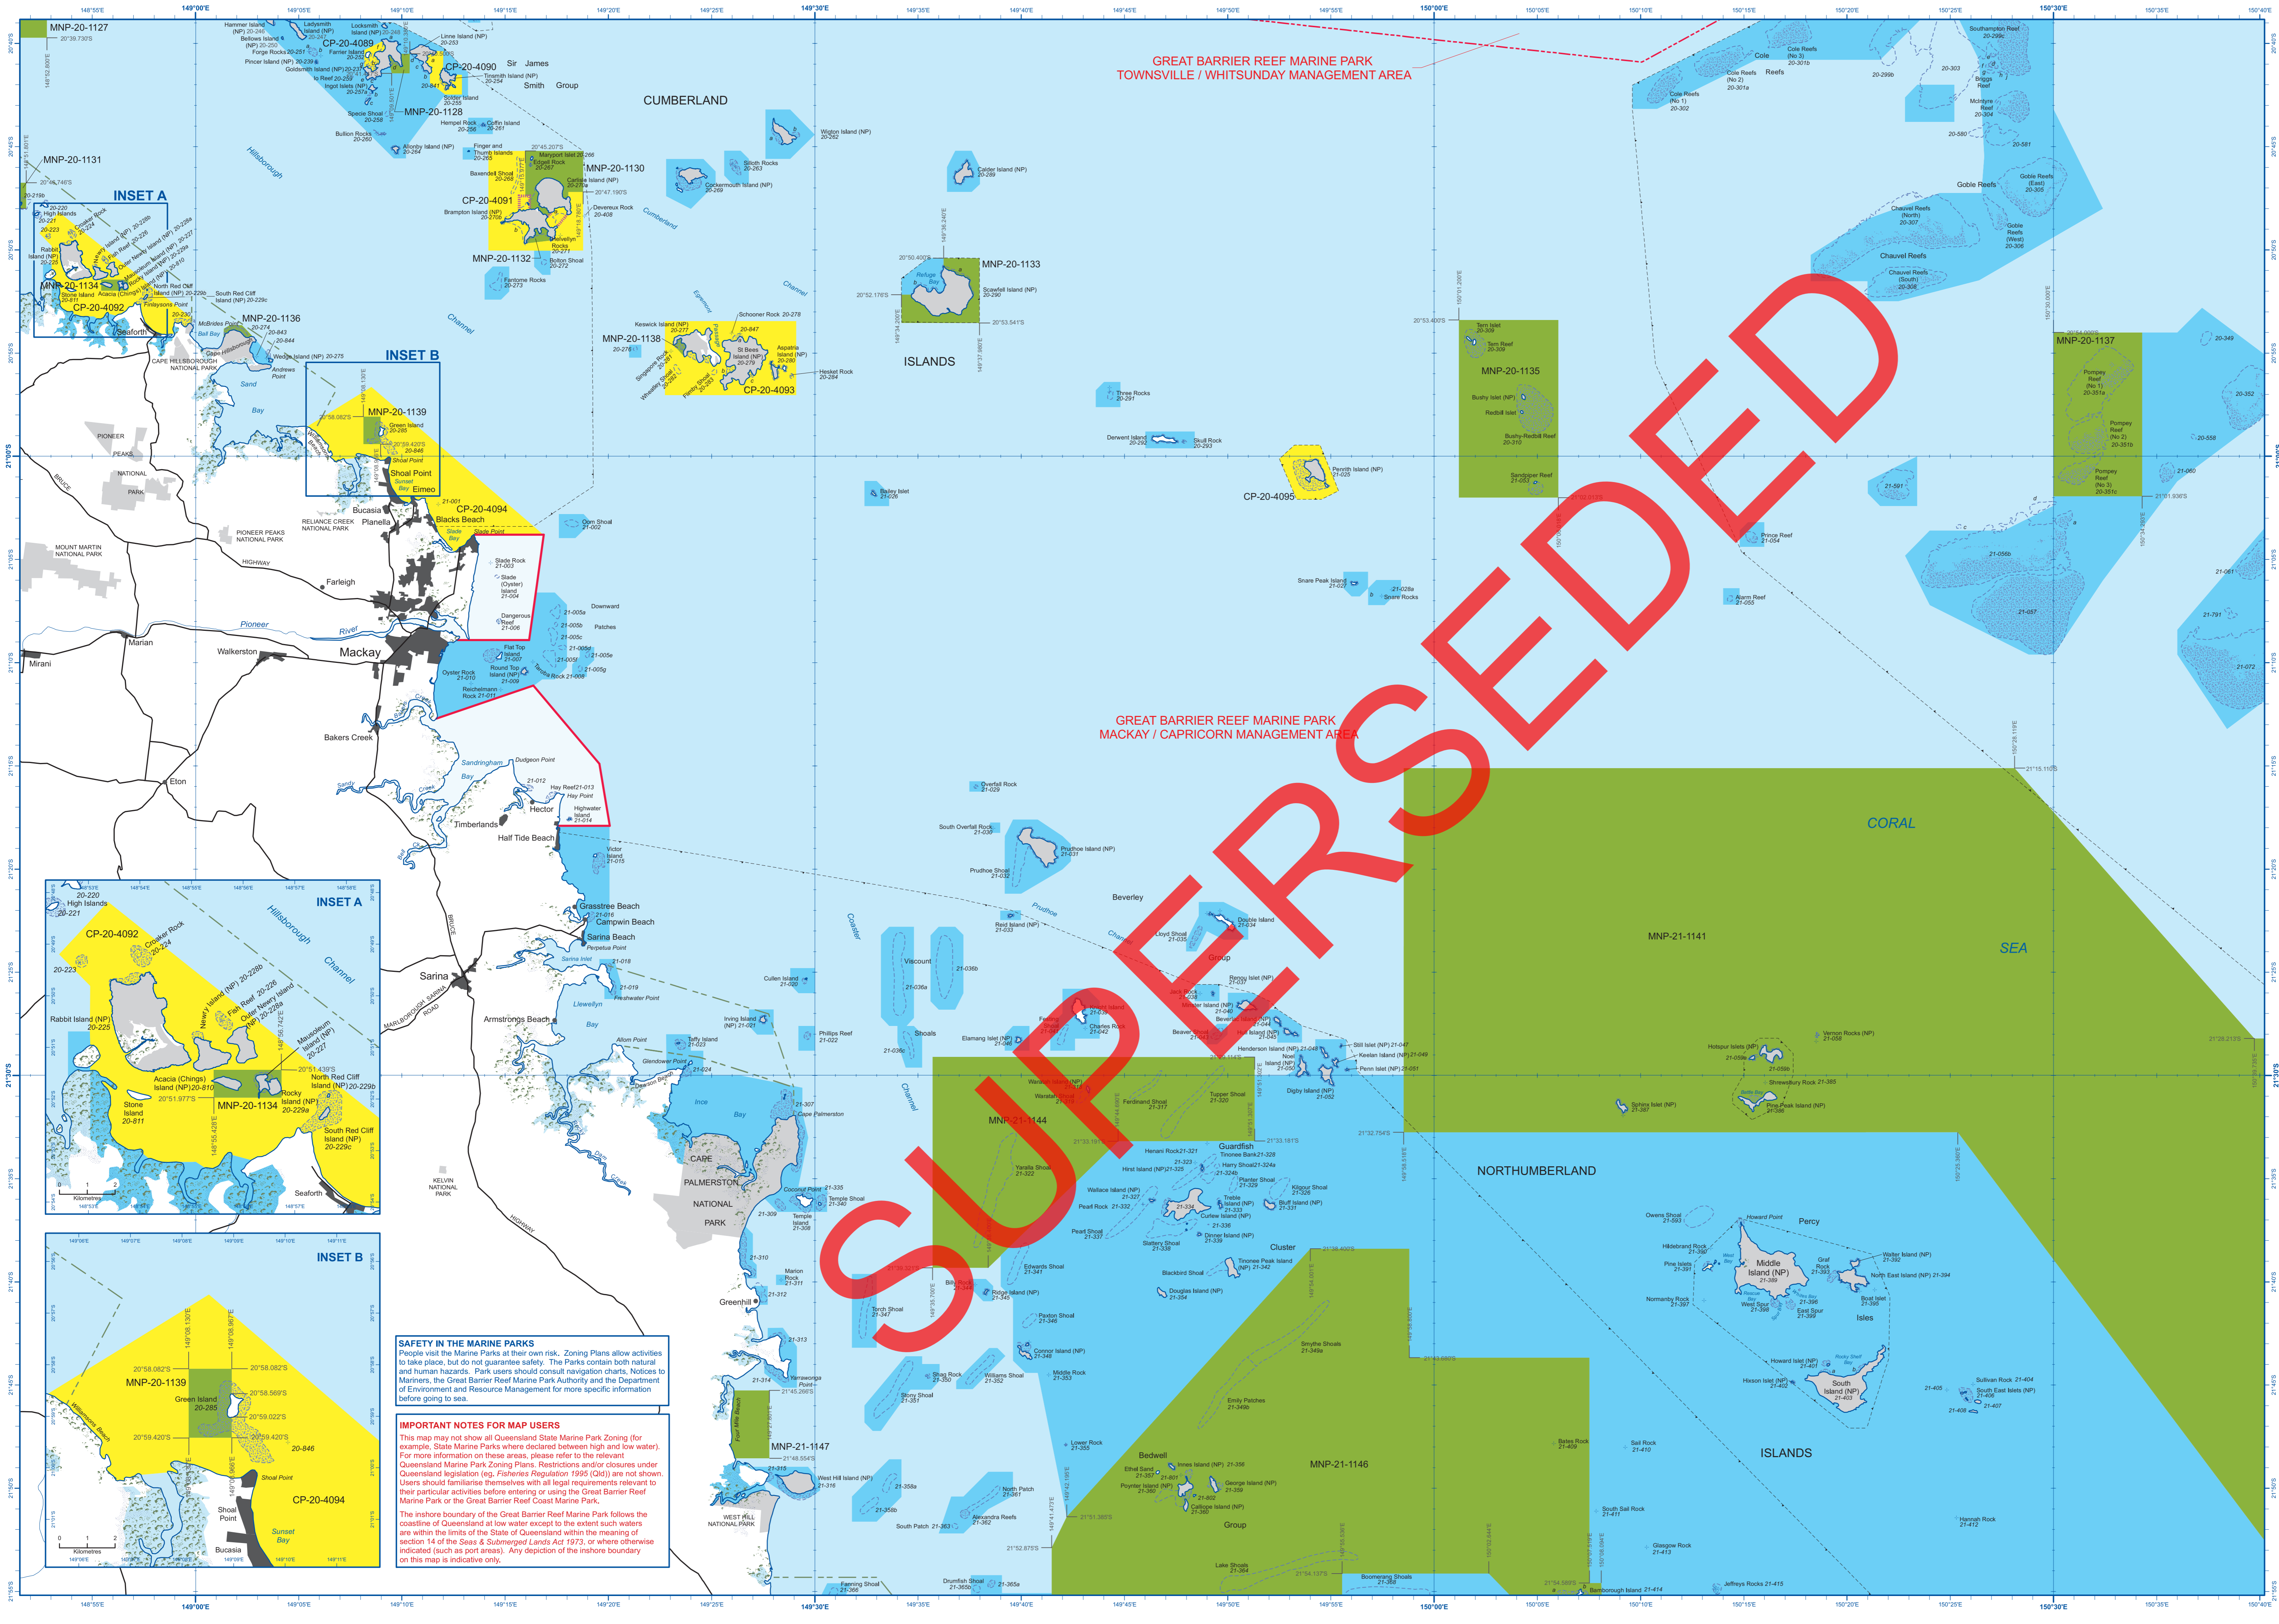

THIS MAP IS INDICATIVE ONLY AND IS NOT INTENDED FOR NAVIGATIONAL PURPOSES. NOTES: 1. The purpose of this map is to help interpret the Great Barrier Reef Marine Park Zoning Plan 2003 and the Marine Parks (Great Barrier Reef Coastal Zoning Plan 2004) for precise boundary descriptions. 2. Zone identifiers indicate the zone type, latitude and number of each zone area. 3. The Great Barrier Reef Marine Parks include the water column, the seabed beneath the seabed to a depth of 1000 metres below the seabed and the airspace to 315 metres above the surface. 4. Reefs, shoals and islands within the Great Barrier Reef Marine Park are numbered west to east within one-degree bands. 5. A centre point is used to determine the appropriate one-degree band for features straddling parallels. 6. The information displayed is held in the Great Barrier Reef Marine Park Authority Geospatial Data Library. 7. While every effort has been made to show all features necessary to make this map a useful general reference, map users are invited to advise the Great Barrier Reef Marine Park Authority of any errors, omissions or other suggestions that would enhance this product. Contact details are shown overleaf, or email to: zoning@gbrpm.gov.au

ACTIVITIES GUIDE (see relevant Zoning Plans and Regulations for details)

Activity	CP - Conservation Park Zone	B - Buffer Zone	SR - Scientific Research Zone	MNP - Marine National Park Zone	P - Preservation Zone	CP - Conservation Park Zone	B - Buffer Zone	SR - Scientific Research Zone	MNP - Marine National Park Zone	P - Preservation Zone

Trotting	Permit	Permit	Permit	X	X	X	X	X	X	X

PLEASE NOTE: This guide provides an introduction to Zoning in the Great Barrier Reef Marine Parks (see relevant Zoning Plans and Regulations for details). Restrictions apply to aquaculture, spearfishing and harvest fishing for aquarium fish, beachcombing and coral in the Conservation Park Zone. Except for One Island Reef (SR-20-101) and Australian Institute of Marine Science (SR-19-2006) which are closed to public access and shown as orange, all other Scientific Research Zones are shown as green with an orange outline. Limited public access is permitted in the Buffer Zone (yellow) and the Marine National Park Zone (blue) by hand or hand-held equipment and generally no more than 6 of a species. Limited public access is permitted in the Preservation Zone (purple) by hand or hand-held equipment. Limited to 1 limited per person and 1 hook per line. Only 1 day detached from a commercial fishing vessel. Great Barrier Reef Marine Parks are zoned in accordance with the Marine Parks Act 1993 and the Marine Parks Act 1993 (as amended). Traditional Use of Marine Resources Agreement or permit is required. Photo species only. Conservation Zones apply to Buffer Zones. Detailed information is contained in the Great Barrier Reef Marine Parks Zoning Plan 2003 and Regulations and the Marine Parks (Great Barrier Reef Coastal Zoning Plan 2004). Permits are required for most other activities not listed above. Commonwealth owned islands in the Great Barrier Reef Marine Parks are zoned 'Commonwealth Islands Zone' shown as green. All Commonwealth Islands may not be shown. Special Management Areas may provide additional restrictions at some locations. The Zoning Plan uses the same symbols as the Marine Parks Act 1993. ACCESS TO ALL ZONES IS PERMITTED IN AN EMERGENCY.

WARNING: This map must not be used for marine navigation. Comprehensive and updated navigation information should be obtained from published hydrographic charts.

SAFETY IN THE MARINE PARKS
People visit the Marine Parks at their own risk. Zoning Plans allow activities to take place, but do not guarantee safety. The Parks contain both natural and human hazards. Park users should consult navigation charts, Notices to Mariners, the Great Barrier Reef Marine Park Authority and the Department of Environment and Resource Management for more specific information before going to sea.

IMPORTANT NOTES FOR MAP USERS
This map may not show all Queensland State Marine Park Zoning (for example, State Marine Parks where declared between high and low water). For more information on these areas, please refer to the relevant Queensland National Park Zoning Plans. Restrictions and/or closures under Queensland legislation (eg. Fisheries Regulation 1995 (Ct)) are not shown. Users should familiarise themselves with all legal requirements relevant to their particular activities before entering or using the Great Barrier Reef Marine Park or the Great Barrier Reef Coastal Marine Park.
The inshore boundary of the Great Barrier Reef Marine Park follows the coastline of Queensland at low water except to the extent that waters are within the limits of the State of Queensland within the meaning of section 14 of the Seas & Submerged Lands Act 1973, or where otherwise indicated (such as port areas). Any depiction of the inshore boundary on this map is indicative only.
