AT A GLANCE

CORPORATE PLAN 2020-21

Our vision: A healthy Great Barrier Reef for future generations.

Our purpose: Provide for the long-term protection, ecologically sustainable use, understanding and enjoyment of the Great Barrier Reef for all Australians and the international community through the care and development of the Marine Park.

01

Program area 1: Enhancing Reef resilience by providing expert knowledge to advise key decision makers on managing, reducing or avoiding significant threats to the Reef.

Our focus in 2020-21 will be to strategically advise on the policy and governance of the Great Barrier Reef World Heritage Area by working collaboratively with a range of sectors to implement the Australian and Queensland governments' Reef 2050 Long-Term Sustainability Plan, including implementation of the Reef Integrated Monitoring and Reporting Program, that will inform decision-making and enable adaptive management of the Marine Park.

02

Program area 2: Enhancing Reef resilience through innovation, management and regulation of the Marine Park and our in-field presence.

Our focus in 2020-21 will be to transform our policy, planning and regulatory approach through implementation of the Policy and Planning Strategic Roadmap to deliver the policy and regulatory settings needed for the future.

03

Program area 3: Enhancing Reef resilience through partnerships, collaboration and education.

Our partnerships are critical in managing this World Heritage property with our focus in 2020-21 on working with the tourism industry, including Reef HQ Aquarium, and encouraging people to see the Reef, love the Reef and importantly, protect the Reef.
