Disclaimer: The above published positions are correct to the best of the Great Barrier Reef Marine Park Authority and Queensland Parks and Wildlife Service's knowledge at November 2020. No guarantee is given that the moorings are in the location shown in the table. Vessel skippers should verify the mooring positions with their own GPS equipment prior to attempting to access the moorings. Particular care should be taken in accessing the moorings in poor weather, reduced visibility, or at night.

Instructions to vessel masters:

- 1. Vessel masters are solely responsible for the safety of their vessel while using the public moorings
- 2. A watch must be kept at all times while the vessel is on the mooring
- 3. Be aware of changing weather and sea conditions and your proximity to obstacles, including coral and other vessels, and how these may be affected by mooring swing
- 4. Refer to instructions specified or included on the tag or buoy.

### Public moorings and Reef Protection Areas in the Whitsundays (Whitsundays Plan of Management)

The Whitsundays region is one of the most highly visited regions of the Great Barrier Reef. The Whitsundays Plan of Management is in place to help protect the values and minimise disturbance. Some basic information on public moorings and no-anchoring areas is outlined below. For further information visit <a href="https://www.gbrmpa.gov.au">www.gbrmpa.gov.au</a>.

#### **Public moorings**

Public moorings are available to all Reef users and are installed at popular locations. Blue double cone-shaped buoys attached to the moorings have a colour-coded band explaining the class (vessel length), time limits and maximum wind strength limits applicable to the mooring.

A large number of privately-owned moorings also exist in the marine parks and you should have the owner's permission before using these moorings.

#### Using public moorings

To protect fragile reefs in high-use areas, there are rules to help stop misuse of public moorings and reef protection markers. The rules include:

- exceeding time limits
- attaching more than one vessel to a public mooring
- rafting-up attaching multiple vessels in a chain when one vessel is attached to the mooring □ altering the mooring
- not following the instructions on the mooring.

These rules ensure public moorings continue to be available for everyone's use. It's about playing fair while out on the water. Anyone found to be misusing a public mooring or public infrastructure may be issued with a fine. The appropriate use of public moorings is outlined in Regulation 171 of the Great Barrier Reef Marine Park Regulations 2019.

## No-anchoring areas

No-anchoring areas protect coral reefs from anchor damage. A person must not drop an anchor for a vessel, aircraft or any other facility in a no-anchoring area. The majority of no-anchoring areas are marked by reef protection markers, which are white pyramid-shaped buoys with a blue label. Twenty five Reef Protection Areas can be found in the Whitsundays.

The	twenty	five	no-and	horina	areas	are	located	at:
1110	LWCIILY	111	no-and	nonnig	arcas	aic	located	aι.

Baird Point	Hook Island – Manta Ray Bay
Bait Reef (unmarked, see map below)	) (unmarked, see map below)

	Black Island		Langford Island
П	Blue Pearl Bay		Luncheon Bay
П	Cairn Beach		Maureens Cove
	Cateran Bay	П	North Stonehaven Bay
	Caves Cove	_	Peter Bay
	Chalkies Beach		Pinnacle Bay
	Cockatoo Point	Ц	Saba Bay
	Crayfish Beach		Sandy Bay
П	Dumbell Island		South Stonehaven Bay
П	East Butterfly Bay		Sunlovers Beach
	False Nara Inlet		West Butterfly Bay
_			

When visiting a reef or bay that has a no-anchoring area:

- You may enter when approaching or leaving moorings or beaches. You cannot anchor inside the area, however vessels may access and anchor on the beach when conditions allow.
- You cannot attach your vessel or aircraft to a reef protection marker.

### Unmarked no-anchoring areas - 2 locations

## Bait Reef unmarked no-anchoring area

## Boundary description Item Description

- 1. The point 19°48.420'S 149°03.644'E
