

## Vision: A healthy Great Barrier Reef for future generations

## Our values:

### We are committed to:

Excellence in all that we do • inspiring all to take action to protect the Reef • being decisive and innovative when applying the best available science and knowledge to address the challenges facing the Reef • continuous improvement in our systems, processes and people’s capabilities.

## Our priorities for the next four years:

### Strategically advise on the policy settings and governance of the Great Barrier Reef World Heritage Area

Reviewing and implementing the *Reef 2050 Long-Term Sustainability Plan*, embedding the *Great Barrier Reef blueprint for resilience*, delivering adaptive management in response to the Outlook Report 2019.

### Transforming policy, planning and our regulatory approach

Implementing the Reef 2050 Integrated Monitoring and Reporting Program to inform adaptive management, implementation of the Policy and Planning Strategic Roadmap, working with Traditional Owners and delivering actions of the *Aboriginal and Torres Strait Islander Heritage Strategy for the Great Barrier Reef*.

### Modernising our approach to managing risks

Risk-based decision making, develop a Reef Resilience Network, streamlining permissions system, using best available science.

### Delivering conservation actions and expanding our in-park presence

Increasing practical conservation actions, responding to incidents, upholding compliance.

### Fostering partnerships

Stakeholder partnerships to encourage stewardship actions, enhance delivery of Traditional Use of Marine Resource Agreements, host the International Coral Reef Initiative, education through Reef HQ Aquarium, work with the Great Barrier Reef Foundation.
