

The following information is required to be submitted at the time of application for for tourism permissions.

Background

1. The Great Barrier Reef Marine Park Regulations 2019 require specific information to be provided with a Marine Parks application before The Great Barrier Reef Marine Park Authority (the Reef Authority) considers the application to be properly made.
2. The following checklists provide the minimum information requirements to be submitted with any application for Marine Park permission. These checklists are not exhaustive and in some cases, the Reef Authority may require further information from the applicant to address specific aspects of the proposal. Please note: information about the applicant (such as ACN if a company, ABN for a trading name, postal address, email address and phone number) is also required when submitting an application.
3. Submitting the required minimum information at the time of application reduces the need for the Reef Authority to seek further information from applicants during the assessment process. This leads to more efficient assessment timeframes.
